DELIVERING ON OUR STRATEGY

Strong returns through the transition

- Always safe
- High value growth in renewables
- High value
- Low carbon
- New market opportunities in low carbon solutions
- Optimised oil & gas portfolio

~20 BN USD
Return on capital employed 2023-30¹

> 15 PERCENT
Average annual cash flow from operations after tax 2023-30¹

2. See step-up in capital distribution slide for more information
Demonstrating resilience

**Strong cash flow**

- Average annual CFFO after tax 2023-30\(^1\)

**Clear capital allocation**

- Competitive capital distribution
- Robust oil and gas investments
- Value creating REN/LCS investments

**Robust capital structure**

- 15-30\% PERCENT
- Long-term net debt ratio

**Value over volume**

- >15\% PERCENT
- RoACE 2023-30\(^1\)

**Robust to lower prices**

- < 50 USD / BBL
- Cash flow neutral 2023-30\(^2\)

**Energy transition plan**

- Net Zero
- By 2050\(^3\)

---

1. Based on reference case 70 USD/bbl, see appendix for key assumptions
2. Free cash flow neutral before capital distribution; based on lower case 50 USD/bbl, see appendix for key assumptions
3. See equinor.com for more details around energy transition plan
Step-up in capital distribution

Long term commitment

Step-up in ordinary cash dividend

- 50% increase in 4Q 2022 ordinary cash dividend to 30 cents per share
- Ambition to grow the ordinary annual cash dividend, measured in USD per share, in line with long-term underlying earnings

Share buy-back as integrated part of ordinary capital distribution

- Annual share buy-back programme of USD 1.2 billion introduced at Capital Markets Day 2021.
- Share buy-back subject to:
  - Brent oil price in or above the range 50–60 USD/bbl
  - Net debt ratio expected within the guided ambition of 15–30% (excluding IFRS16)
  - Commodity prices
  - Renewal of board authorization at the Annual General Meetings in 2023 and onwards

USD 17 bn total expected capital distribution 2023

1. The 4Q 2022 cash dividends are subject to approval by the AGM. The 1Q–3Q 2023 cash dividends and further tranches of the share buy-back programme will be decided by the Board on a quarterly basis in line with Equinor’s dividend policy, and subject to existing and renewed authorizations from the AGM, including agreement with the Norwegian state regarding share buy-backs. Share buy-back amounts include government share.

2. First tranche of USD 1 billion including the government share to be launched after 4Q 2022 announcement.
**ENERGY TRANSITION PLAN**

**Ambition backed by actions**

- Continue reducing our own emissions
  50% reduction of operated emissions by 2030\(^1\)

- Shifting investments to accelerate transition
  >50% of gross capex to transition by 2030\(^2\)

- Committed to a net zero future
  40% reduction in net carbon intensity by 2035\(^3\)

---

**Net carbon intensity for energy provided**

This presentation contains certain forward-looking statements that involve risks and uncertainties. In some cases, we use words such as “ambition,” “continue,” “could,” “estimate,” “intend,” “expect,” “believe,” “likely,” “may,” “outlook,” “plan,” “strategy,” “will,” “guidance,” “targets,” and similar expressions to identify forward-looking statements. Forward-looking statements include all statements other than statements of historical fact, including, among others, statements regarding Equinor’s plans, intentions, aims, ambitions and expectations, such as, but not limited to, future, guiding an numbers and net debt ratio, the ambition to develop as a broad energy company: the ambition to be a leader in the energy transition and reduce net group-wide greenhouse gas emissions; future financial performance, including cash flow and liquidity and cash flow from operations after tax; free cash flow; 2023-2026, accounting policies; the ambition to grow cash flow and returns and improve return on capital employed (ROACE); expectations regarding progress on the energy transition plan; expectations regarding cash flow and returns from Equinor’s oil and gas portfolio; plans to develop fields and increase gas exports; expectations and plans for development of renewable projects; renewables installed capacity and production capacity; investments and power generation in renewables; 4-8 percent renewables real base project return, net zero by 2050, future power generation offtake, CCUS and hydrogen businesses; future production growth, oil & gas cash flow neutrality and unit production costs, future CO2 capture and storage projects; expectations regarding utilisation of tax losses, the ambition to keep unit of production cost in the top quartile of our peer group; scheduled maintenance activity and the effects thereof on equity production; completion and results of acquisitions and disposals; expected amount and timing of dividend payments and the implementation of our share buy-back programme; and provisions and contingent liabilities. You should not place undue reliance on these forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons.

These forward-looking statements reflect current views about future events, are based on management’s current expectations and assumptions and are by their nature subject to significant risks and uncertainties because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements, including levels of industry product supply, demand and future fluctuations in oil & gas prices, in particular in light of significant oil price volatility and the uncertainty created by Russia’s invasion of Ukraine; social and economic conditions in relevant areas of the world; levels and calculations of reserves and material differences from reserves estimates; natural disasters, adverse weather conditions, climate change, and other changes to business conditions; regulatory stability and access to attractive renewable opportunities; unsuccessful drilling; operational problems; in particular in light of supply chain disruptions; health, safety and environmental risks; the effects of climate change; regulations on hydraulic fracturing; security breaches, including breaches of our digital infrastructure (cybersecurity); ineffectiveness of crisis management systems; the actions of competitors, the development and use of new technology, particularly in the renewable energy sector; inability to meet strategic objectives; the difficulties involving transportation infrastructure; political instability; reputational damage; an inability to attract and retain personnel risks related to implementing a new corporate structure; inadequate insurance coverage; changes or uncertainty in or non-compliance with laws and governmental regulations; the actions of the Norwegian state as majority shareholder; failure to meet our ethical and social standards; the political and economic policies of Norway and other oil-producing countries; non-compliance with international trade sanctions; the actions of field partners; adverse changes in tax regimes; exchange rate and interest rate fluctuations; factors relating to trading, supply and financial risk; general economic conditions; and other factors discussed elsewhere in this presentation in the fourth quarter 2022 report and in Equinor’s Annual Report on Form 20-F for the year ended December 31, 2021, filed with the U.S. Securities and Exchange Commission (including section 2.13 Risk review - Risk factors thereof). Equinor’s 2021 Annual Report and Form 20-F is available at Equinor’s website www.equinor.com.

Prices used in this presentation material are given in real 2022 value, unless otherwise stated. Forward looking cash-flows are in nominal terms. Break-even events are in real 2023 terms and are based on life cycle cash-flows from Final Investment Decision dates.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot assure you that our future results, level of activity, performance or achievements will meet these expectations. Moreover, neither we nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements. Any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by applicable law, we undertake no obligation to update any of these statements after the date of this report, either to make them conform to actual results or changes in our expectations.

We use certain terms in this document, such as “resource” and “resources” that the SEC’s rules prohibit us from including in our filings with the SEC. U.S. investors are urged to closely consider the disclosures in our Form 20-F. SEC File No. 1-15200. This form is available on our website or by calling 1-800-SEC-0330 or logging on to www.sec.gov.
